FROM THE PRINCIPAL

Student Success
Congratulations to Year 12 student Parvathi Subramaniam who has received two pieces of good news over the holiday break. Not only has she been working very hard studying and preparing for her upcoming HSC exams but she has also been working hard on her application to become a World Vision Youth Ambassador. Parvathi is now through to the final stage of the 2015 Youth Ambassador selection process having recently submitted a great YouTube video submission. Her final interview will take place in front of a panel of World Vision staff who will be asking a range of questions that will be centred on who she is and why she would be a great Youth Ambassador. The panel interview will be broadly looking at a range of capabilities such as communication, awareness of self and others, innovation and conceptual capacity. Parvathi also has to tell the panel about a time when she encountered injustice or poverty, what she learned through it and how it changed her. At the same time Parvathi has received an early offer to study a Bachelor of Applied Science (Occupational Therapy) at the University of Sydney. This is a great stress reliever as she now knows that should she get the marks she needs she is guaranteed a place at uni next year. Congratulations for all the hard work Parvathi.

HSC Exams
The HSC exams start on Monday morning with the first exam being English. We expect our Year 12 students have spent their time wisely over the last few weeks in preparing as best they can for the month long period. During the break a large number of teachers were here at the school offering extra revision sessions with the students and it was pleasing to see so many avail themselves of the opportunity. This shows they are determined to continue working towards success and it will have helped them feel more confident as the first exam approaches. My thanks to all those teachers who gave up part of their holidays to work with our students.

Staff Changes
At the start of this week we welcomed Ms Tamara Cole who was appointed as our Agriculture teacher replacing Mr Newton. Ms Cole comes from a farming family and has experience handling animals and running all aspects of farm life. This will be a
tremendous thing for our students who will once again have access to authentic practices. We welcome Ms Cole to a caring and respectful community and look forward to her settling in very soon and feeling one of the family.

At the end of last term our librarian, Ms Crouch, was offered a position at Figtree High School which she will take up at the start of week 6 this term. Ms Crouch will be on leave before then but will return in week 5 to conclude the Year 8 – 10 Gifted and Talented Program she has been coordinating. We know this relocation will see her move much closer to home and with less travel involved, we wish her all the very best and hope she too settles quickly and easily into her new school.

**Year 12 2015**

As year 11 leave their preliminary year behind them and they move into term 4 they experience so many changes and shifts in demands that we have decided that our In Focus evening, which traditionally was held at the start of the new calendar year, should be brought forward into term 4 so that parents and students receive important advice about how to progress through this important school year. We are about to finalise the date on the calendar and will be informing parents as soon as possible about this new date.

**Australian Business Week**

Year 11 have returned from their holidays and gone straight in to the challenging, fun, exciting, educational, creative and technical Australian Business Week program. Each year I tell them that it will be the best experience of their school lives and so far I haven’t been proved wrong. This year the students got very quickly into running their simulated business and designing their new product. They had a range of guest speakers who delivered workshops on the importance of financial management, marketing, operations and HR. But this is not a Business Studies activity! It is more about team work, creativity, communication, problem-solving, decision making, critical thinking and collaboration. The skills that our students develop during this week long challenge will be hugely beneficial as they approach the final year of study. There will be a full report next week but I would like to thank Ms Dalton for her outstanding organisation and thank also the staff who accepted the role of mentor for their groups throughout the week. Congratulations to all of the students for their engagement, commitment and enthusiasm for learning this week.

---

*Christina Bennet*

*Principal*
FROM THE DEPUTY PRINCIPAL

Year 12
I would like to wish all Year 12 students every success in their current HSC examinations. This is the time that hard work, commitment and sustained effort will deliver the academic success you have strived for over the last 2 years. Our current cohort of students have proven to be excellent ambassadors and community members and the teachers at MFHS are here to support them throughout the examination period. HSC exams commence on Monday 13 October and conclude on Tuesday 4 November.

Uniform
The first week of term 4 has brought with it changing temperatures, truly representative of the Spring season. At Model Farms High School, the expectation for student uniform does not change on such days. All students are to present to school in the correct uniform, including socks and shoes. If in unforeseen circumstances, this is not possible, a note from the parent must be written and submitted by the student to a Head Teacher prior to the commencement of the school day. Please be vigilant in supporting the school and P and C with the wearing of the school and sports uniform. Canvas shoes (rather than leather), non-white socks and socks below the ankles are not part of the school uniform. On Wednesday (Sport), students are to wear supportive athletic shoes. The uniform policy is clearly stated inside each student’s diary as well as on the Model Farms High website.

Year 10
I trust that all Year 10 students gained valuable insight into the working world, through their Work Experience at the end of term 3. I have had numerous conversations with students who informed me that the week was fun, hard work, tiring and provided opportunities to learn new skills. This week will hopefully provide some students with a direction of possible careers, or in the very least, be able to remove a job as a possible career. I wish each year student every success in the forthcoming term, especially in their final examinations later in the term.

Student Success
Congratulations to Danika Hamstead of Year 12, who recently received notification that she has been given a call back for both her Major Dance Performance and Core Performance for Dance. This is outstanding on its own merit, however, Danika had a major shoulder injury earlier in the year, requiring her to change both of her dances, from the beginning, due to the lack of mobility in her shoulder.

Danika has proven throughout the year to be highly resilient, very talented and above all, to be a wonderful person and ambassador for the school. Understandably, her family is incredibly proud of her achievement, as is the school. Well done Danika!

Positive Feedback
On Thursday, whilst attending the afternoon buses, Mrs Manson was approached by the driver of Bus 2597. The driver explained that he had been in his job for over 20 years and found the students at Model Farms to be the most polite, well behaved and respectful he has come across. He was
thrilled that so many, when exiting at a stop, took the time to say thank you to him. What a fantastic positive affirmation for our students!

Have a wonderful week,

Have a wonderful week,
Mark Grady

Human Society and It’s Environment Faculty

Year 7 Geography Exams
These will be held in normal Geography lessons as advised by the respective class teacher. Notification of what the exam will be on will be given out over the course of the upcoming week.

Some Geography Fun Facts:
- Longest officially recognised place name is Taumatawhakatangihangakoauauotamateapokaiwhenuakitanatahu. (But where is it?)
- The Atlantic Ocean is saltier than the Pacific Ocean. (What is the Southern Ocean like?)
- It’s still possible to see the division between East and West Germany due to different light bulbs.
- Due to gravitational effects, you weigh slightly less when the moon is directly overhead.
- There are approximately three chickens for every human on Earth.
- Venice Island was built on a foundation of tree trunks. 1200 years later, those same trunks still support almost all of central Venice. (Which bridge is shown in the photo?)

Mr S. P Weingarth
Year 10 Geography Coordinator, Excursion Organiser
NEWS FROM THE DANCE SPACE

DANCE ...the subject that moves you

“I do not try to dance better than anyone else. I only try to dance better than myself.” — Mikhail Baryshnikov

Reminder to Ensemble members:
rehearsals each Wednesday 2:40-3:20pm

Year 9 Dance – Safe Dance Booklets are now due.

Year 11 Dance – You are now Year 12! And the real work begins.

As the warmer weather approaches, it is vital that we remember to keep up the fluids, especially when we are involved in physical activities. Dance increases heat production by muscles. Cooling the body depends on evaporation of sweat from the skin. Sweat loses during a dance class can be up to 2 litres per hour. This fluid loss can result in dehydration which can impair performance and mental function such as the ability to concentrate on technique, alignment and safe dance practises efficiently. A cup (250 ml) of water every 15 minutes is recommended. Bring a bottle of water to each dance class. Our body’s thirst mechanism does not always keep up with our need for fluid so make sure you drink regularly. After class, you should continue to increase fluid intake for a couple of hours. Avoid carbonated drinks and juices. A simple way to check hydration is your urine colour: clear to light = good hydration, yellow to dark can mean you need more hydration.
Year 11 Noticeboard
A Message from the Year Advisor Mr. Montgomery

Gianna Edirimanne of Year 11 has kindly volunteered her time to working with the Saint Vincent de Paul Society. She is an inspirational and hard-working student and is congratulated for her success with the program. Well done, Gianna.

The SPARK Program
Written by Gianna Edirimanne
This year I decided to do my own independent research into volunteering opportunities in my community. I came across a program called SPARK by the Saint Vincent de Paul Society, which is an after school homework and activities club for refugee children in Kindy to Year 6. It aims to help children develop confidence in themselves as they are supported to understand and complete their homework, enjoy recreational activities and develop relationships with their peers.

An important element of this program is raising community awareness about refugees and new members of the school community. This promotes understanding, acceptance and mutual appreciation within the local community.

I was immediately inspired by the program’s goals and focus and decided to apply as a volunteer. Taking part has been such a humbling and rewarding experience, I have watched my peer student develop a sense of independence and confidence when completing his assigned tasks. The SPARK program has a strong network of volunteers and leaders who were welcoming from my first day of volunteering. Since then, I have made many friends and it is motivating to have the opportunity to work with like-minded people.

I encourage students at Model Farms High School to find volunteering opportunities in our local community and to not be scared to give up some of your time to take part. You can take part in daily events or long term volunteering, there is something to suit everyone. I cannot emphasise how rewarding volunteering is no matter how small the deed.

If you are interested go to http://volunteer.com.au

Year 11 Yearly Drama Examination
Well done to our Year 11 Drama students who successfully presented their Yearly Group Performance Practical Examination at the end of Term 3. They were entertaining, engaging and demonstrated moments of flair and originality. I look forward to seeing what this troupe of young actors brings to the stage as they embark on their HSC year. Great work guys!
MODEL FARMS HIGH SCHOOL

UNIFORM Shop Information for Parents & Students
Year 7 - 2015

Model Farms High School is a "Uniform School" and every effort is made to ensure that garments are provided at a reasonable cost and in a variety of sizes – including hard-to-fit sizes. Our Uniform Shop is run by wonderful VOLUNTEERS with any profits directly benefiting the school.

~~ PLEASE bring your child when purchasing uniforms ~~
There are NO standard sizes. Trying to guess sizes DOES NOT work.

A "SPECIAL DAY" for Year 7 is provided to enable you to fit and purchase your uniform requirements. This is SATURDAY, 29th NOVEMBER 2014 between the hours of 9.00 a.m. – 2.00 p.m. On this day we have many volunteers (as opposed to 1 or 2 on normal trading days), separate areas for boys & girls and a specific payment area. This all ensures a smooth and much quicker uniform purchase.

The Uniform shop is open Monday, Wednesday and Friday mornings during each term from 8:10 am until 9:00 am (excluding Teacher Development Days). Please feel welcome to purchase your child's uniform on any of these days, if you are unavailable on Saturday 30 November, however DELAYS may be experienced.

The last day of trading for 2014 is Friday, 5th December. Please also be aware the Uniform Shop will NOT be open on the first day of school 2015 so all uniform requirements need to be purchased prior to school starting.

Please note: We will NOT be open for Year 7 - 2015 uniform purchases on Orientation Day, 3 December 2014.

The Uniform Shop will also be open on SATURDAY, 10th JANUARY, 2015 from 9.00 a.m. – 2.00 p.m. However, we recommend 29th November, as this day is primarily for Incoming Year 7.

Should your child be likely to need garments outside our normal size range please ensure that you visit us as soon as possible so that orders are placed with sufficient time allowed for delivery prior to commencement of school. We recommend that uniform items be purchased prior to close of business in December. This is to ensure all your requirements are ready for the start of school. If we do need to re-order this can be done during the Christmas break ready for you to pick up in January. It can be very unsettling for students to not have the required items.

PRE-LOVED UNIFORM - Limited second-hand uniforms are available through the Uniform Shop.

BOOK PACK - A superior quality Book Pack for Year 7 students is available. This contains ALL the initial stationery requirements as requested by their teachers. As only a limited quantity is available, it is recommended that Book Packs be purchased in December to avoid disappointment.

CALCULATOR - The calculator required for Year 7 to Year 12 is available from the Uniform Shop as a separate item. Teachers have requested that ALL Students use the same calculator.

USB DRIVE - Is essential however, is NOT available from the school.

PAYMENT - Payment is accepted in the following forms:
Cash - Eftpos - Cheque - Mastercard - Visa

We look forward to meeting you.

Rod Noble
UNIFORM SHOP CO-ORDINATOR

Note: MFS uniform items are not available through other retailers. Price lists were correct at time of printing however, prices are subject to change without notice.

WWW.MODELFARMS-H.SCHOOLS.NSW.EDU.AU
Congratulations to the following Maths merit recipients:

**Year 7**
Lara Azzopardi, Brooke Blackshaw, Liam Boljevac, Samantha Ervin,

**Year 8**
Kathleen Foo, Matthew McVey x 2.

**This week’s news**
Welcome back to a very busy fourth term. The dates for the Yearly exams for Years 7 to 10 are below. All students should be revising their work from in their home study time in preparation for these very important examinations.

We would also like to thank the Mathematics teachers who came into school during the holidays to give valuable last minute coaching to their Year 12 students.

**Yearly Examinations for Years 7, 8, 9 & 10:**
Year 9 will be the first year group to complete their Yearly Examinations. It will be done in their double period of Mathematics, Friday 17th October (Week 2 Term 4). The Year 9 Yearly examination will consist of a short non-calculator section, followed by the longer calculator paper. Please make sure that your Year 9 student has a copy of the examination outline. They were given out in class during Week 10 of Term 3.

Please make sure that your student brings their own mathematics equipment (pens, pencils, calculators, rulers, geometry sets) for their Yearly Examinations. Equipment MUST NOT be shared in the exams. Please note that Year 7 is the only year group that will not be using calculators for their examinations.

The timetable for the Mathematics Yearly Examinations is as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Date</th>
<th>Paper Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 7</td>
<td>Tuesday 21st October &amp; Thursday 23rd October</td>
<td>Both papers are non-calculator</td>
</tr>
<tr>
<td>Year 8</td>
<td>Thursday 6th &amp; Friday 7th November</td>
<td>One non-calculator &amp; one calculator paper</td>
</tr>
<tr>
<td>Year 9</td>
<td>Friday October 17</td>
<td>One non-calculator &amp; one calculator paper (two papers being done in the double period that day.)</td>
</tr>
<tr>
<td>Year 10</td>
<td>Tuesday 28th October (both exams being done in a double period)</td>
<td>One non-calculator &amp; one calculator paper</td>
</tr>
</tbody>
</table>

Students should be revising their work and if they have any problems with any topics, they should contact their teachers.
Calculators:
Please make sure that all students have their own calculator. The Casio fx-82AU is sold at the uniform shop for $35. Different brands of scientific calculators work differently and it is important that everyone in a class has the same calculator. Students need this calculator from Year 7. It is vital for their progress that students are familiar with their calculator and know how to use the different functions.

Free Maths Tuition:
Free Maths tuition is provided every Thursday afternoon after school from 3pm to 4pm. Years 7 to 10 are in room 8-07 and Years 11 and 12 in 8-06. It is fully supervised by the Mathematics Faculty.

Fun with Maths
The Year 10 Yearly Examination is similar in style to the School Certificate examination. The Year 10 Yearly Examination will test student knowledge from both the Stage 4 and Stage 5 courses. Here is the link to the online quizzes that will help Year 10 students preparing for this important exam that will be held in week 4 term 4.

Have a Mathematical week,
From Jackie Dalton and the Maths Faculty Staff
