SAFETY ALERT

SAFETY ALERT No 55

The NSW Food Authority has advised of the recall of the following products due to potential contamination with Hepatitis A.

- **RECALL OF NANNA’S MIXED BERRIES, FROZEN** in 1KG plastic bag, all best before dates up to and including BBD 22/11/16,

- **RECALL OF NANNA’S RASPBERRIES, FROZEN** in 1KG plastic bag, all best before dates up to and including BBD 15/9/16,

- **RECALL OF CREATIVE GOURMET MIXED BERRIES**, 300g, frozen in plastic bag, all batches up to and including BBD 10/12/17 and 500g, frozen in plastic bag, all batches to and including BBD 06/10/17.

Schools are advised to monitor the [NSW Food Authority recall page](#) given the extension of the initial alert to additional products.

All NSW government schools must take action to ensure that products matching this recall are removed and discarded. These products are not to be consumed. Where a school identifies use of this product, draft correspondence for parents and students can be obtained from the WHS Directorate on 9707 6227.

[NSW Health](#) has updated its warning to the public to watch for symptoms of Hepatitis following reports of at least nine cases of Hepatitis in Australia linked to Nanna’s frozen berries.

Hepatitis A is a viral infection of the liver. Symptoms can commence two to seven weeks after exposure to an infectious person or after eating contaminated food. Early symptoms are fever, nausea and loss of appetite. After several days, jaundice can also develop.

Hepatitis A may be spread through contaminated food or water or by direct contact with an infected person. Given that this product is widely distributed, there is the potential that others may be sick with Hepatitis A now, or develop the disease over
the coming weeks. Good hygiene practices, including careful hand washing, can help to prevent the spread of infection.

A fact sheet on Hepatitis A is available from NSW Health. People who are concerned that they have been exposed to hepatitis A or people with symptoms of Hepatitis should see their doctor.

Schools are asked to monitor the NSW Health website and the NSW Food Authority website for further updates on this situation.

Schools may contact their local public health unit for advice on 1300 066 055 or speak with the WHS Directorate on 1800 811 523 where they have specific concerns.

Yours sincerely

The Mother’s Day Classic – 10 May 2015

Parramatta Park or The Domain

Get ready to celebrate a classic Mother’s Day!

Registration opened in December 2014 for Australia’s biggest breast cancer research event, the annual Women in Super Mother’s Day Classic.

Every Mother’s Day for the past 17 years, Australians have walked or run to fund research and honour those who have been diagnosed with breast cancer.

At the 2014 Mother’s Day Classic more than 135,000 participants in 97 events around the nation and on overseas military bases raised $4.5 million, bringing the overall total raised to $24.3 million.

Register now at:

This year’s event is being held on Sunday 10 May 2015, and is open to all ages and fitness levels, so there is something for everyone, whether you want to participate or simply come along and support.

More than a quarter of a million people have participated in past Mother’s Day Classic events, and you can too this year by registering at www.mothersdayclassic.com.au

The Mother’s Day Classic was established in 1998 by Women in Super.

Women in Super continue to organise the event. Since Women in Super initiated the event in 1998, survival rates for women diagnosed with breast cancer have increased to 85%.

ME Bank has proudly supported the Mother’s Day Classic as the major sponsor since 2005.
